Paul,

Thanks for your review and consideration in advance. We look forward to completing our large mine permit.

Thank you

Cody--

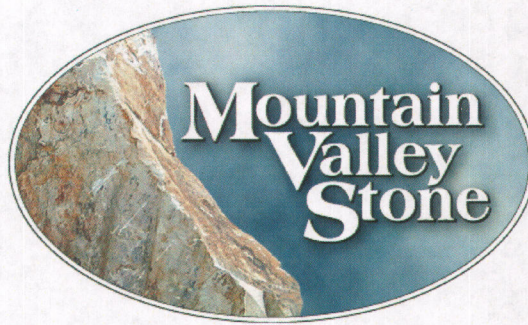

Consider your request approved. I have printed your letter and will print this e mail for our files, and I will update the database.

I do this with a little reluctance; it's a longer extension than I really want. I have to emphasize, though, that I appreciate Mountain Valley Stone as a good operator which means a lot to me. I realize there were several comments in the last review, and I'm grateful for the work you're doing and your cooperation.

Subject: Deadline Extension Request for Initial Review of NOI

Dear Mr. Baker,

After a thorough review of all the comments received on our large mine permit, Mountain Valley Stone is requesting a deadline extension for the resubmittal of the changes that have been requested by DOGM. The extension request is due to the estimated time period given to Mountain Valley Stone by third party contractors for the completion of key parts to the Large Mine Permit, and also because of the large volume of changes that need to be made to the overall permit. Additionally, the month of December tends to be an extra busy month because of the Holiday season. With these things considered we are requesting a due date of **March 31st, 2016** for resubmission.

Thank you in advance for your consideration of this extension and for the time and help you have given us.

Thank You,

Robert Hicken
